INTRODUCTION

MEDIATORS is a Mobility and Education Project that was developed by YPIDA Association, funded by Erasmus Program, and supported by the Turkish National Agency, that aims to bring together youth workers, storytellers and professionals to share and create innovative tools and methods that can help them overcome their daily life challenges and to be active contributing members of their communities.

The project will be held in Bethlehem and Jerusalem, two cities with an extensive history of conflict.

Throughout the mobility and training, one of our main goals is to support dialogue, integration and cooperation despite the boundaries created at the local, national and international level by using non-formal education methods.

DESCRIPTION

Conflicts have been part of and have shaped human relationships throughout history. In current times, through the help of technology and the power of social media, we are highly exposed to the turmoil and conflict happening at a national and international level. We can see how conflict has been and will continue to be an inevitable part of how we connect as humans, so it is important for us to be aware of how to manage situations of conflict in a non violent, respectful, and inclusive way

This project, designed by YPIDA Association, aims to enable participants to navigate and explore the concept of conflict and the barriers that people confront, as well as equip participants with tools that can assist in conflict management. With so many similar patterns of conflict around the world, participants will have the opportunity to compare and contrast social phenomena and how conflicts have historically transformed society from an individual level to a collective level.

OBJECTIVES

- To learn and share about the origins of conflicts on an individual level from the different regional backgrounds of partner countries.
 - Focusing on local boundaries to understand the challenges of individuals created by the social, political, and economic dynamics.
 - Create a collective message by combining alternative approaches to conflict resolution and visual arts.
- To explore conflict through a multicultural and intercultural and practice skills relevant to effective negotiation and mediation.
 - To advocate for the important role of youth workers as mediators and ambassadors of dialogue in their communities.
 - To strengthen and extend the international network of cooperating organizations from different partner countries by developing sustainable projects

PROJECT ACTIVITIES

- TEAM BUILDING
- WORKSHOPS
- STUDY VISITS
- TEAM WORKING
- LEARNING GAMES
- INTERCULTURAL FEST
- FILMING
- GALA - CLOSING

FILMING

We have seen the important role that the media has in displaying personal experiences and the power of spreading a message to a wider audience. Our focus on exploring conflict will guide and help participants to create a short video/film that can be shared to strengthen the voice of younger generations and to inspire a sense of solidarity and community.

PROFILE OF PARTICIPANTS'

- Is in the ages between 20-40;
- Able to communicate in the working language English;
- Academic scholars, experts, professionals, and people who have a passion for the topics of individual and regional conflict, mediation, negotiation and multiculturalism;
- Youth workers;
- Professional and/or amateur young movie maker in order to create alternative approaches on conflict;
- Willing to actively participate and commit to all required tasks and activities;
- Believes in making changes and willing to face challenges.
