MILAS GENÇLİK VE SPOR KULUBU DERNEĞİ

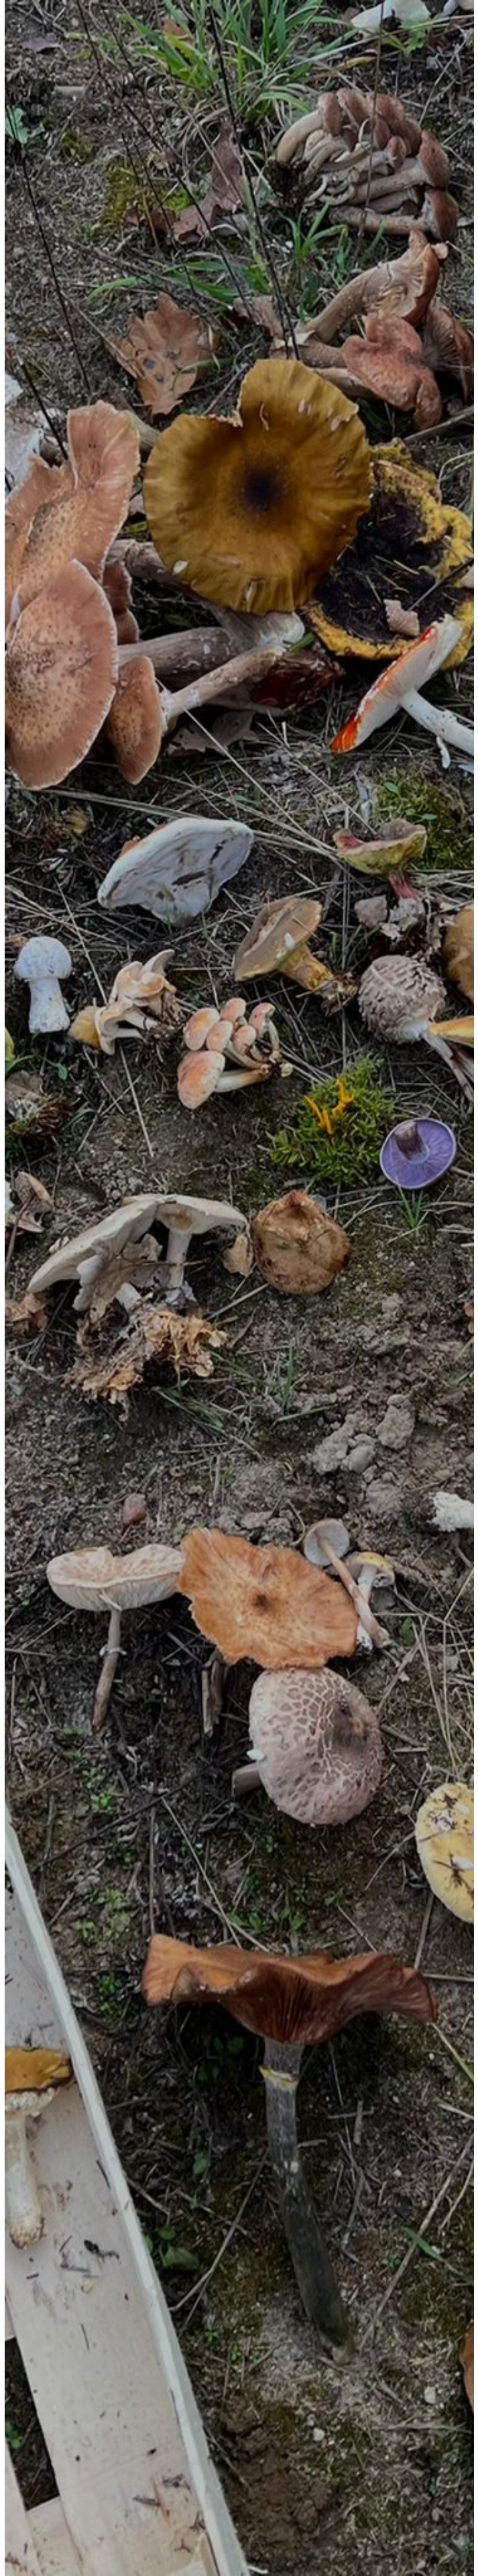

BERLIN STAGE

OCT 11-17, 2011

The project, which we started by gathering around the fire with the participation of 24 young people from Germany and Turkey, continued on the second day by collecting mushrooms.

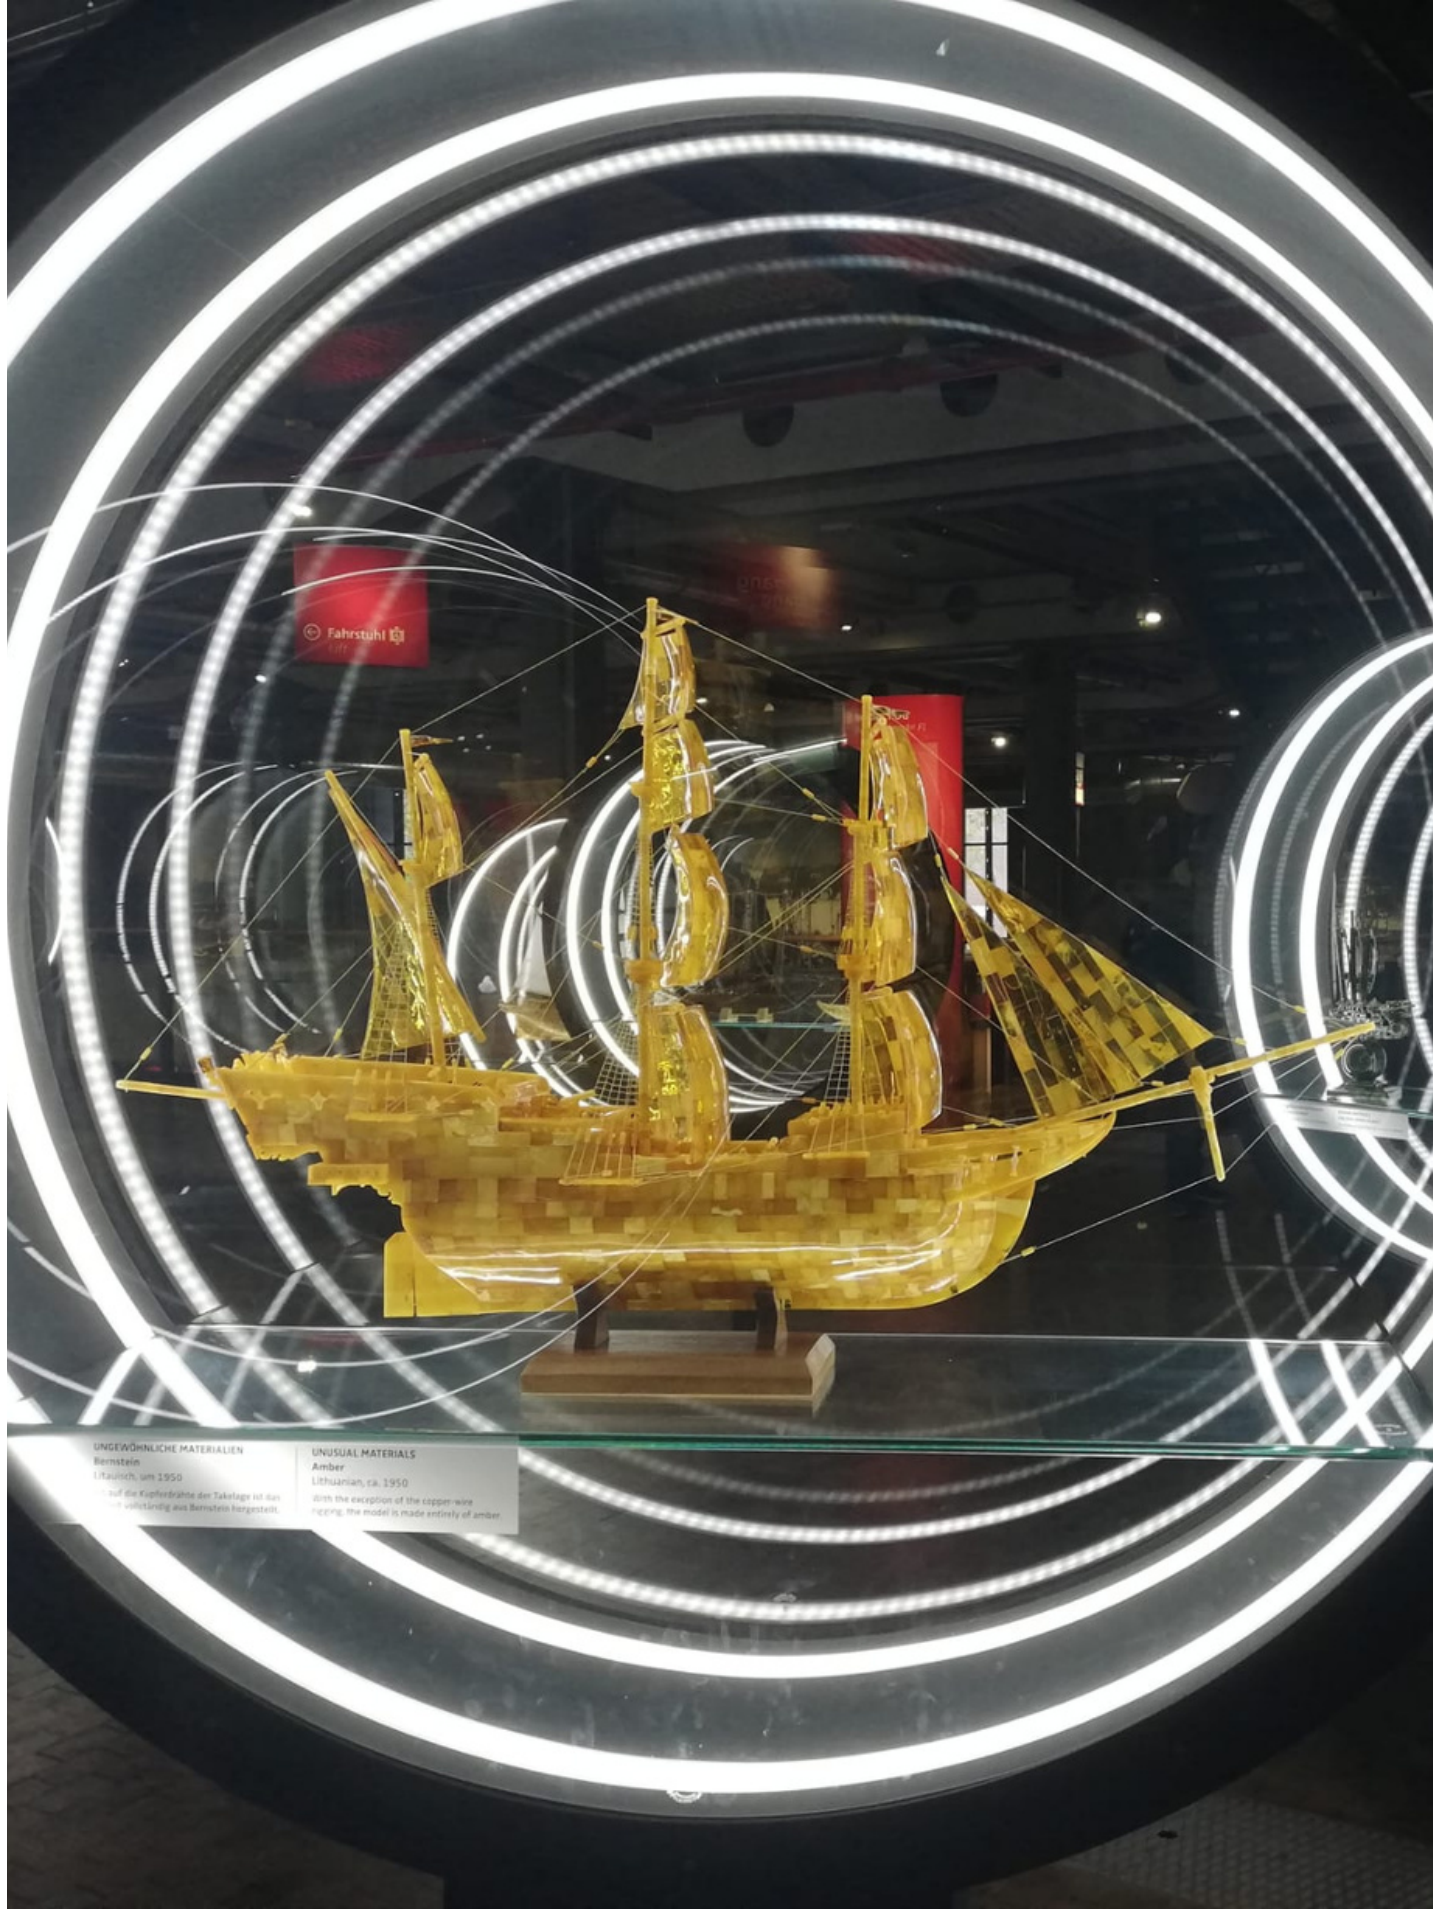

The next day,
after the city
tour our
participants held
a workshop with
students from
Berlin Technical
University.

In the following
days of the
project, we
focused on our
main goal, the
tree planting
activity.

The closure of the project, in which the feedback was shared and the activities to be held in Milas were discussed, ended by gathering around the fire as it started on the first day.
